PHRASEOLOGY ELECTRONIC EQUIPMENT—INSTALLATION, SERVICE OR REPAIR—SHOP AND OUTSIDE & DRIVERS

(N/A MT)

Note: Electronic equipment can be installed in homes, automobiles, and boats. Electrical wiring or tower erection to be separately rated. Applies to the installation, service or repair of electronic equipment by retail store employees. Store operations to be separately rated. Refer to Code [9519](#) for the installation, service and repair of household and commercial appliances. The installation of visual and sound equipment for stadiums and theaters is assigned to Code [9154](#). Refer to Code [5191](#) for the installation, service or repair of office machine equipment. Refer to Code [7600](#) for insured's under contract with a telecommunications company.

Description:

Code 9516 applies to employers that install, service, or repair home theater equipment including, but not limited to, televisions, DVD players and recorders, digital video recorders, and speakers. The erection of satellite dishes (36 inches or less) to receive broadcast signals is also assigned to Code 9516 when performed by the home theater installer. Satellite dishes are generally mounted on homes or other buildings.

Employees who work exclusively in an electronics store and do not install, service, or repair equipment are assigned to Code [8017](#). Refer to Code [9519](#) for the installation, service, or repair of electrical appliances.

Analogy Assignments:

- The installation, service, or repair of vehicular equipment such as alarm systems, radios, or other audio equipment found in vehicles is also classified to Code 9516 when performed by a specialty shop
- Code 9516 also includes the service and repair of mobile communication devices such as but not limited to telephones, beepers, and pagers
- The installation, service, or repair of marine radar systems, radios, and depth finders is assigned to Code 9516
- The installation or repair of intercommunication systems and sound systems is assigned to Code 9516

Related Operations Not Classified to Code 9516:

- Refer to Code [7600](#) for operations that mount antennae on towers that have been erected by others.
- Refer to Code [5040](#) for employers that erect towers and attach antennae to these towers at the same job or location.
- Refer to the appropriate garage classification for the installation, service, or repair of vehicular equipment such as alarm systems, radios, or other audio equipment when work is performed by automobile service stations.
- Refer to Code [3724](#) for the installation of large (more than 36 inches) satellite dishes.
- Refer to Code [7600](#) for the installation of small (36 inches or less) satellite dishes when installed by a telecommunications employer.
- Refer to Code [9154](#) for the installation of theater equipment such as stages, lighting, and sound equipment.
- Refer to the appropriate construction code for the installation of screening rooms. These rooms require more advanced installations and often include sophisticated acoustic design elements, including “room in a room” construction that isolates sound and provide the potential for a nearly ideal listening environment.
- Refer to Codes [5183](#) and [5190](#) for the installation, service, or repair of water, gas, and electrical utility meters.
- Refer to Code [7520](#) for the installation, service, or repair of water meters when performed by employees of a water plant.

CROSS-REF. AIRCRAFT AVIONICS AND INSTRUMENTATION INSTALLATION, SERVICE, OR REPAIR—SHOP AND OUTSIDE & DRIVERS

(N/A [AK](#), [FL](#))

Note: Includes the installation, service, or repair of aircraft avionics and instrumentation on all types of fixed- and rotary-wing aircraft. These operations may be performed at a plant or shop facility away from an airport, or may be performed within a hangar or similar structure at an airport. Independent service contractors and fixed-base operators performing these services are assigned to Code 9516.

Refer to Code [7403](#) for ground support services performed at airports.
